REFRIGERATOR (3-WAY)

All Coach House Motorhomes use Dometic RV refrigerators.

Your Dometic refrigerator unit can be energized by electricity using 12 volt or 110 volt. In addition it will run on propane gas. Refer to the refrigerator instruction manual in the Instruction Kit for lighting and operation of the refrigerator.

A temperature activated fan is mounted in the compartment behind the refrigerator to prevent over heating. This fan will come on when the temperature rises to an unsafe level in the compartment and will not shut off until the temperature has been reduced back to a safe operating level.
